

Daughters of God Encounter Course

This course was designed to enable women to know freedom in who they are, through Jesus Christ. It includes tea and cake, laughter, discussion around life-experiences and the Bible, and creative prayer space. The course offers a safe space for women to share, and aims to bring the head-knowledge of who we are in Christ into an experience of the heart; a deep awareness that we are indeed daughters of God. It builds on the concept that our painful or confusing life experiences don't need to be at odds with the truth of who we are in Christ.
